Subject: Request for TMDL Approval
Attachments: approval_request_ltr_2_EPA.pdf

Dear Mr. Torres,

Attached is a letter from the Central Coast Regional Water Quality Control Board requesting USEPA approval of TMDLs for nitrogen and phosphorus compounds in streams of the Franklin Creek watershed. A copy of the attached letter, along with the necessary review documentation (on DVD), is being sent via U.S. Mail to Mathew Mitchell, our USEPA TMDL liaison. Please let me know if you have any questions regarding this matter.

Kind Regards,

Larry M. Harlan

Central Coast Water Board
